Profile Summary

- A detail-oriented professional **with 2 years of experience** as a full stack software developer.
- Experienced as a Software Engineer at Dhee Yantra Research Labs Pvt Ltd, showcasing proficiency in **Java, Spring Boot, React JS, and MySQL**, leading to successful project outcomes.
- Skilled in designing, developing, and deploying robust web applications, with a strong focus **on responsive front-end interfaces and efficient back-end logic**.
- Adept **at managing databases, conducting unit testing, and collaborating with cross-functional teams** to deliver high-quality software solutions.

Academic Details

- Bachelor of Engineering (B.E.)
Civil Engineering**
Prathyusha Engineering College,
Thiruvallur, Tamil Nadu;
CGPA: 8.42
(PASSOUT-2019)

Soft Skills

Analytical | Collaborator | Leader | Adaptable

Technical Skills

- Languages:**
Java, HTML5, CSS3, JavaScript, SQL
- Frameworks & Libraries:**
Spring Boot, Microservices, Web Services (REST), Hibernate, JPA, React.js
- Operating Systems:**
Windows, Linux (Ubuntu)
- Version Control:**
Git, GitHub, GitLab

Core Competencies

Restful API

Debugging

Web Services

Microservice Design

Performance Optimization

System Scalability

Work Experience

Software Engineer
Dhee Yantra Research Labs Pvt Ltd., Bangalore February 2023 – January 2025

Responsibilities:

- Developed conversational chatbots using APIs and platforms, enhancing customer engagement across multiple domains.
- Designed and implemented APIs for patient admissions, journals, surveys, and treatment management, optimizing healthcare workflows.
- Collaborated with project managers and stakeholders to gather requirements and deliver solutions within deadlines.
- Participated in code reviews and maintained code quality standards.

Achievements:

- Implemented responsive and user-friendly front-end interfaces using React, HTML, and CSS, enhancing user experience.
- Deployed RESTful APIs and server-side logic using Spring Boot, ensuring efficient data transfer and smooth application functionality.
- Conducted unit testing and debugging, **reducing software defects by 30%.**
- Optimised and managed databases using Cassandra and MySQL, ensuring optimal performance and data integrity.

Projects

MY JEEVA Healthcare Web Application

Tools: React, Spring boot, MySQL
Roles: Full-Stack web application, Deployment
Description:

- Developed APIs for patient admissions, journal, and survey management.
- Engineered front-end components to display journal and survey entries for different user roles.
- Automated workflows to support cancer healthcare management.

MY JEEVA

Tools: React, Spring boot, MySQL, Cordova
Roles: Full-Stack web application, Deployment
Description:

- Designed **'My Jeeva'** mobile application using React and Cordova for patients to access healthcare information.
- Integrated the mobile app with the existing web application, providing detailed treatment information, journals, and surveys.
- Created intuitive mobile interfaces to enhance user experience.
- Implemented backend services using Spring Boot for data synchronization.
